Sustainable, super high-speed printing

Scan and print in super high quality. Offering enhanced security and advanced software compatibility, this eco-responsible multifunction printer (MFP) series offers exceptional reliability and outstanding performance with every print.

Available in 60ppm, 75ppm and ultra-fast 100ppm variants

With an impressive first copy out time (FCOT) as fast as 4.9 seconds, and rapid print speeds, maximize productivity without compromising on quality.

Low user intervention

Print up to 100,000 pages in mono or 50,000 in colour without changing the ink supplies[1]. This means fewer consumable changes, less user intervention and therefore less hassle, and lower costs.

Low total cost of ownership (TCO)

With an ultra-low power consumption, and low user intervention, this reliable and innovative MFPs offers significant financial savings over the lifetime of the device.

Enhanced finishing capability

The series offers exceptional media flexibility. Furthermore, our colour series offers advanced finishing options such as booklet finisher and hole punch options for a professional result.

Powerful and improved scanning capability

Epson's single pass ADF is available in our colour series, offering market leading thin paper support with a compact, robust design and improved scanning quality.

Compatible with Epson Remote Services

Reduce service costs using our cloud-based device monitoring and management system that delivers advanced remote diagnostics. Secure and easy to integrate, increase customer satisfaction by enabling faster response times, fewer on-site visits and higher first fix rates.

Compatible with in-house and third party solutions

Gain complete control of your printing operations with Epson and its partners solutions that enables you to adapt your printer to meet specific and changing business requirements. Meet the needs of SMBs to large enterprises, as well as vertical markets.

Works with Epson Print Admin Serverless (EPA Serverless)

Seamlessly integrate the series into security and compliancy rules, and regulations, without the burden of maintaining a server system.
